Even the most stylish stars strike out, but can their looks be saved?

## KIMBERLY STEWART

The Ugg-boots-paired-with-mini-skirt style is the rage, but "just because it's what's happening doesn't mean it's right," says stylist Brenda Cooper. Kimberly's undershirt and kicky pleated skirt would look better with a pair of high heels, or even simple Keds.

## DARYL HANNAH

"This is dowdy and drab," says Cooper. "Daryl is one person who should never wear black. It drains the life from her." If she wants to wear the trendy dress-with-pants look, Daryl should slip on a pair of heels. The Chuck T sneakers completely ruin the look.

## LIL' KIM

"Lil' Kim has never looked better, but this is the wrong outfit for the occasion," says stylist Brenda Cooper. "Her hair and makeup look beautiful, but it's just not a red-carpet look. An elegant gown would be more appropriate."
